

HELVETICA T65

Description

Ceiling mounted built-in round showerhead Ø 650 mm with 5 led RGBW. N.6 Wall mounted built-in round side jets 75 mm.
Ceiling recess depth: 150 mm
Wall recess depth: 53,5/71 mm
Water Supply: 1/2" inch
Operating pressure: 1,5-5/3 bar

Control unit

Electrical supply: 230 V
Power supply: 100 W
Water supply: 1/2 inch male
Dimension: 525 x 500 x 149,5 mm
Pre-wired control panel with stainless steel support to be installed in technical compartment. User interface with display for setting parameters. Electronic mixer for automatic temperature and 12V power supply.

Functions

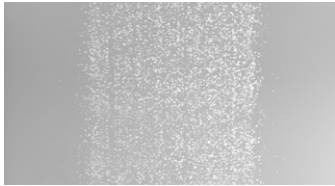

Optional
N.2 Support frames with integrated aroma pumps with mint and citrus tanks. Dimension 1 set aroma: 830 x 198 h 201 mm.
N.2 integrated transducers on the top of showerhead and audio system with micro sd card.

Programs

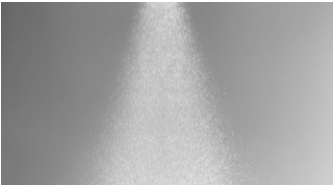

Activation: 4 push buttons keyboard in super mirror stainless steel.
Dimension keyboard: 210 x 90 x 3 mm
Functions:
1 Program:
P-RELAX Relax program
2 Program:
P-ENERGY Energy program
3 Program:
P-BALANCE Balance program
4 Program:
P-SPORT Sport program

Jets

Rain x1

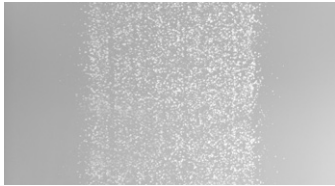

Nebulized x3

PROGRAM 1

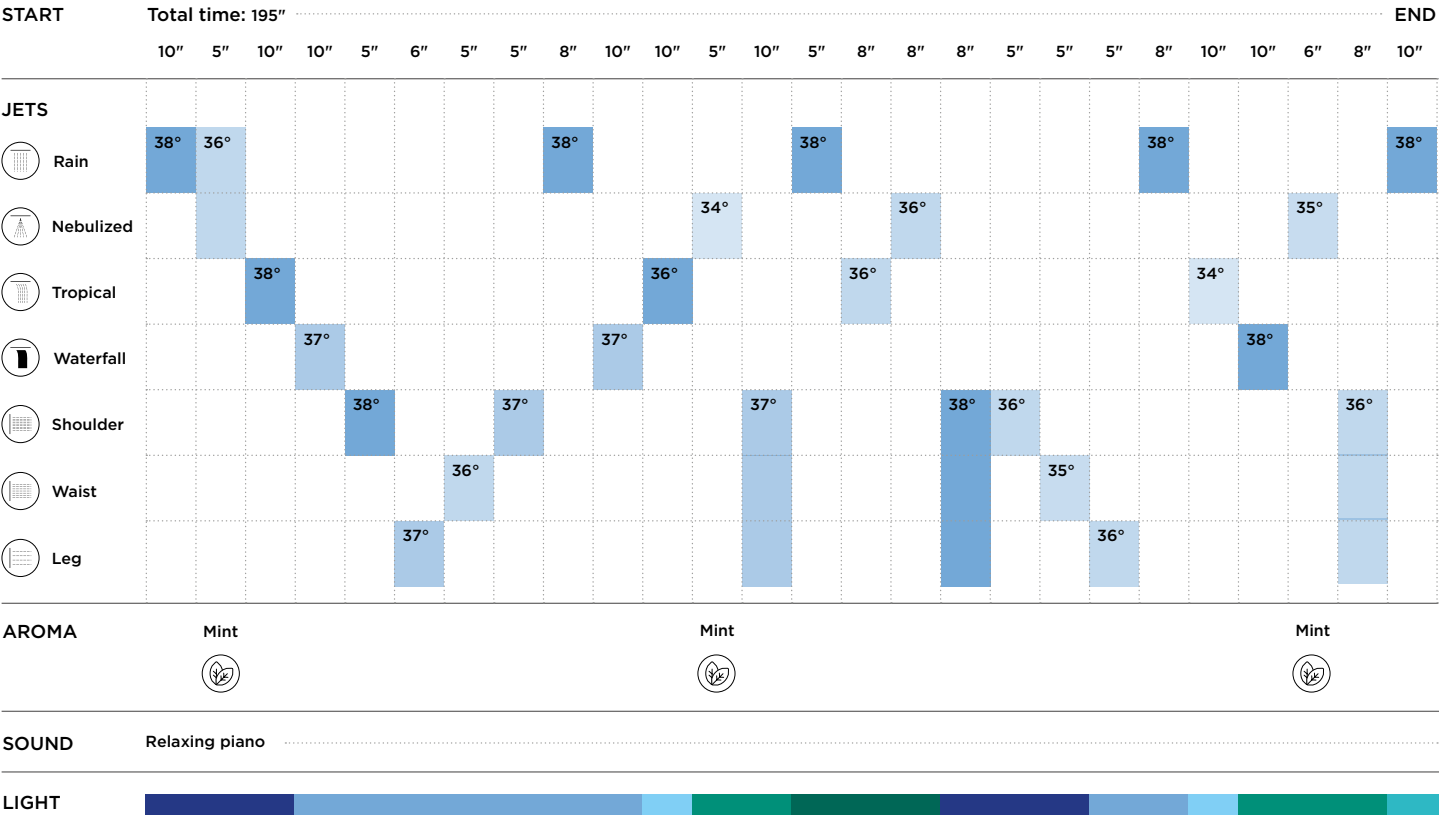

RELAX

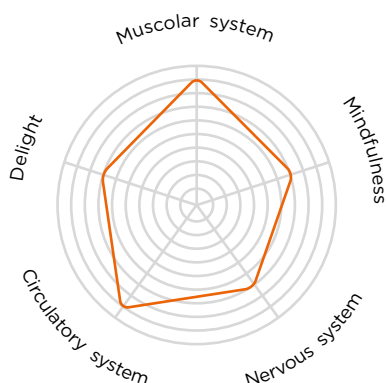

The 'Relax' programme is a meticulously crafted experience to induce deep relaxation and awareness through a harmonious blend of calming effects. This programme aims to cultivate a deep sense of calm and tranquillity using warm water temperatures, gradual and subtle transitions and a carefully curated colour palette dominated by serene blues and greens. During the 'Relax' programme, sequenced water jets gently caress the body, focusing on different areas to provide a soft, enveloping massage. These expertly orchestrated sequences promote

muscle relaxation and the release of tension, encouraging a state of physical and mental rest. The incorporation of cool, calming tones such as blue and green enhances the programme's calming effects. These colours are known to have a calming influence on the mind, potentially lowering heart rate and blood pressure and promoting a sense of balance and serenity. The interaction of gentle water pressure and calming colour therapy creates an immersive environment that promotes stress reduction and mental clarity.

Example of HELVETICA 70

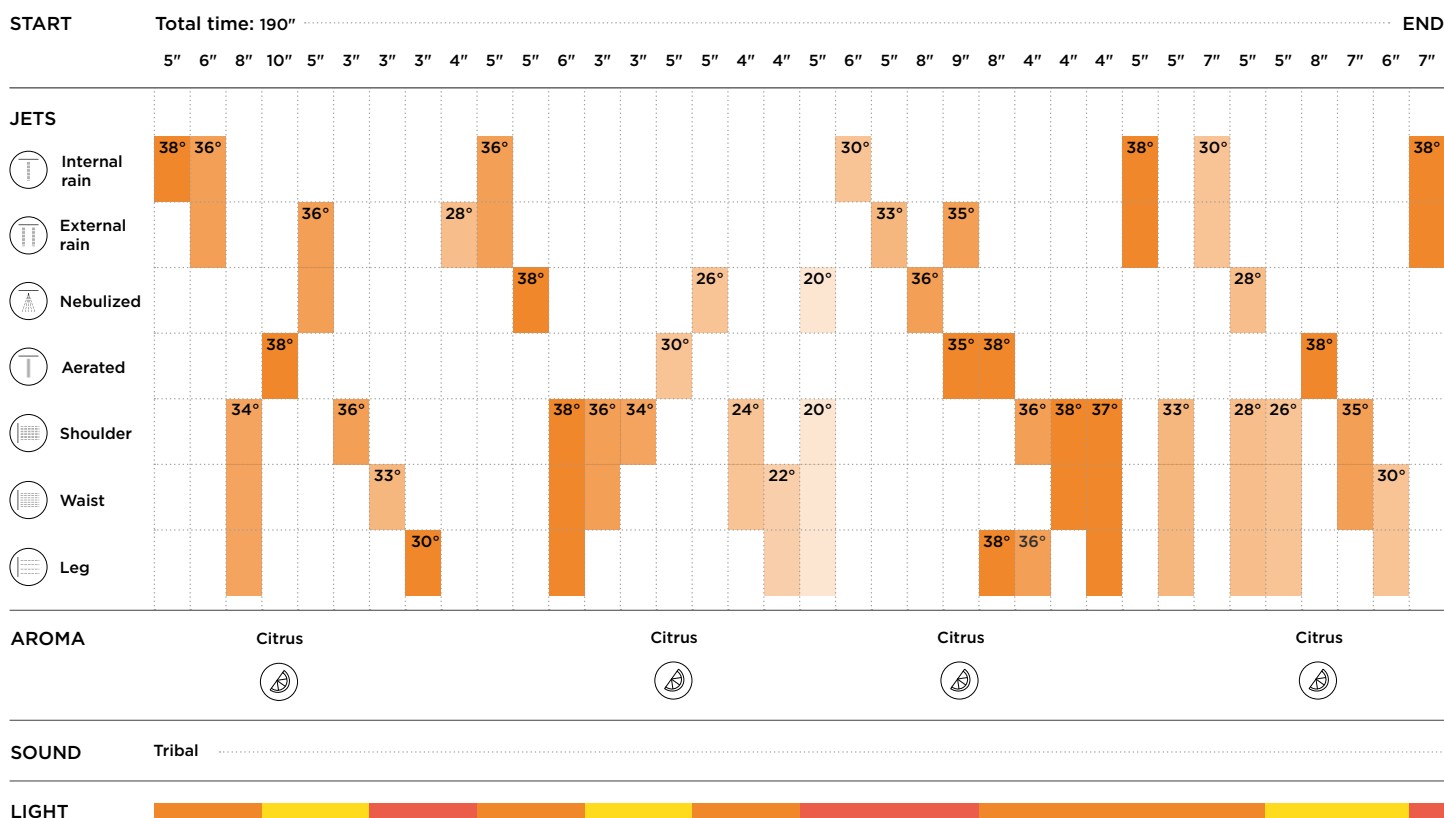

ENERGY

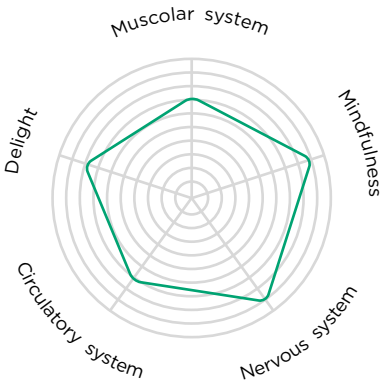

of alternating warm and cool colors contributes to creating a lively and dynamic atmosphere. Warm colors, such as red and orange, can stimulate and energize, while cool ones, like blue, can refresh and invigorate.

PROGRAM 3

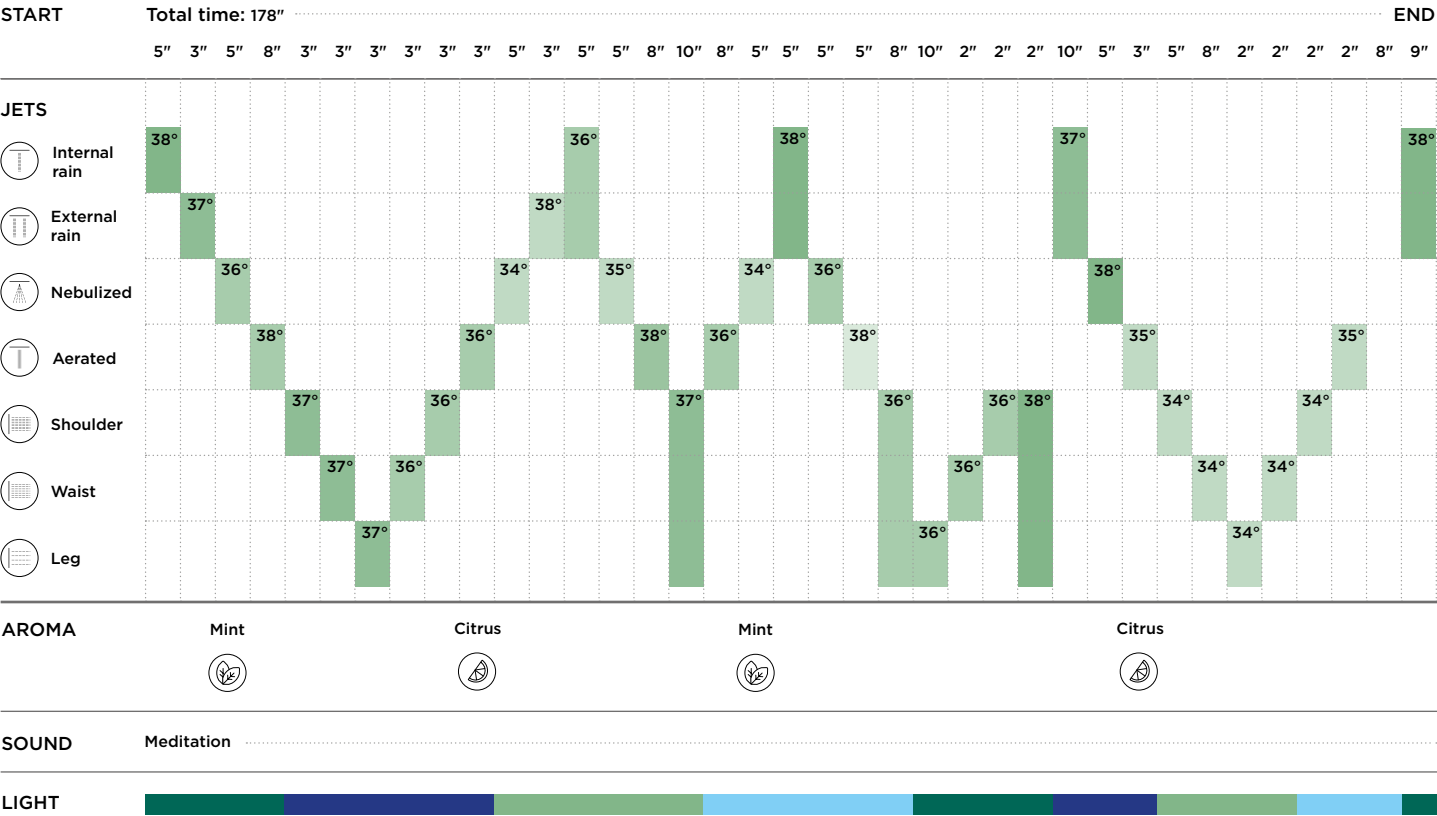

BALANCE

The balance program is an experience designed to help users regain physical and mental balance. This program offers a combination of delicate and relaxing stimulation , focused on creating a sense of harmony and well-being. During the "Balance" program, sequences of water jets are concentrated on specific parts of the body. These sequences aim to gently stimulate the muscles and release any tensions, with particular attention to areas associated with physical balance, such as the neck, shoulders, and back. A distinctive element of the "Balance" program is

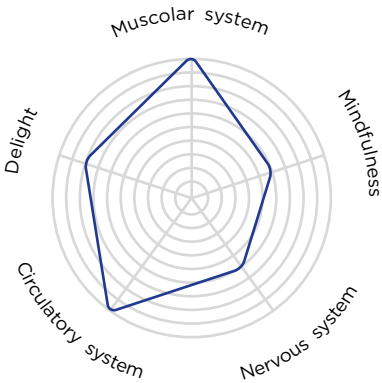

the calibrated rhythm, similar to that of a metronome. This regular rhythm, like the ticking of a clock, is used to create a sense of controlled time and to guide the mind towards a state of relaxed concentration. This rhythmic component helps stabilize the perception of time and stimulate the mind in a measured and harmonious way.

PROGRAM 4

SPORT

The sport program is designed to meet the specific needs of those seeking a treatment dedicated to muscle recovery and relaxation after intense physical activity. This program aims to offer specific benefits for athletes and anyone who has subjected their body to intense physical efforts. During this treatment, water temperatures vary gradually to create a thermal contrast effect. This gradual transition between warmer and cooler temperatures stimulates blood circulation and promotes muscle recovery. The "Sport" program

involves a sequence of sequential massage with lateral jets, designed to cover various areas of the body involved in physical activity. This targeted massage helps improve flexibility, reduce muscle stiffness, and promote relaxation. During the "Sport" program, sounds and aromas are used to create an energizing atmosphere. These additional sensory elements help stimulate both the body and mind, offering a sensation of vitality and renewal.
