PROGRAM

PROMENADE

The promenade program within the emotional tunnel offers a multi-sensorial experience, allowing guests to encounter a wide range of sensations, from delicate atomized jets to more vigorous jets. This sensory diversity is crafted to create an engaging and stimulating experience. Chromotherapy, integrated into the path, acts as a powerful amplifier of the emotional atmosphere, transforming the space and intensifying the overall sensory experience. The selected colors can emotionally influence people, aiding in creating an environment that adapts to the various stages of the journey. The

aromas permeating the spatium provide an additional layer of experience. These subtle fragrances gently impact mood, adding an olfactory dimension to the walk and assisting in modulating the perception of the surrounding environment. Lastly, the sounds accompanying the journey are carefully chosen to craft an enveloping and harmonious auditory atmosphere. From soothing melodies to natural sounds like the rustling of water or birdsong, the diverse soundtrack contributes to completing the experience, stimulating hearing, and enriching the emotional connection with the environment.
